

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + Refrain from automated querying Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

TREASURER'S REPORT.

STATE OF OREGON, TREASURY DEPARTMENT, SALEM, October 1, 1906.

To the Honorable Legislative Assembly of the State of Oregon:

I have the honor to present herewith, this, my fourth and last report of the transactions of the Treasury Department of the State of Oregon for the period commencing October 1, 1904, and ending September 30, 1906.

The operations of the treasury during this period may be briefly summarized as follows:

Cash on hand, October 1, 1904 Receipts, two years ending September 80, 1906	\$ 568,189 65 4,706,484 89
TotalDisbursements, two years ending September 80, 1906	\$ 5,274,674 54 4,859,383 55
Cash on hand, October 1, 1906	\$ 415,340 99

The number of receipts issued during the period covered by this report aggregates 14,606 as against 12,950 for the preceding two years.

The financial affairs of the State are in most excellent condition, perhaps better than at any other period in the State's history, there being now absolutely no State debt of any kind, the last legislature having made provision for the payment of the outstanding Swamp Land warrants of over \$60,000, which have constituted the only interest-bearing debt for some years. Warrants on all funds have been paid as presented, none having been endorsed "Not paid for want of funds." All of the counties except Malheur have paid all State tax due. Malheur owes the first half of this year's tax, amounting to \$2,937.50. Practically all of the Common School, Agricultural College, and University funds are now loaned on mortgages and school district bonds, and interest on the same is well paid up, there

being but very few delinquents; but few mortgages have been foreclosed, and the State has acquired no farms on account of foreclosure of mortgages.

COMMON SCHOOL FUND.

When I assumed the office in January, 1899, the amount of the Common School Fund in this department was as follows:

Mortgage loan notes	\$ 1,981,069 76 444,498 17
Total	\$ 2,425,767 98
It now stands as follows:	
Mortgage loan notes	\$ 3,723,589 64 825,825 00 71,883 05
Motel	0 4 100 747 00

This shows an increase of \$1,694,979.76 in the total amount of the fund in this department, and an increase of the amount invested in first mortgage loans and school district bonds of \$2,067,794.88, while the cash on hand has decreased \$372,815.12. The amount of common school fund interest apportioned to the public schools of the State, August 1, 1899, was \$199,905.88, while the amount apportioned on August 1, 1906, was \$265,992.20, being an increase of \$66,086.32, although the rate of interest in the meantime has been reduced from eight per cent to six per cent on mortgage loans, and \$232,850 of the school district bonds bear only five per cent.

INHERITANCE TAX.

The receipts from this source for the past two years amount to \$38,481.61, and will doubtless increase from year to year. The tax could be greatly augmented by amending the law so that it would apply to estates of \$5,000 or more in value, instead of \$10,000 or more, and by reducing the exemption to direct heirs from \$5,000 to \$2,500. I believe this would at once double the amount of revenue. The work of collecting this tax is very great, and as the other duties of the office have greatly increased during the last two years, and will be still further increased by the duties imposed by the two tax

laws adopted by the people at the last election under the initiative amendment to the constitution, I would suggest and earnestly recommend that an inheritance tax department be created, similar to the corporation department in the office of the Secretary of State, with a clerk and a stenographer to handle it under direction of the State Treasurer. The clerk could attend the appraisement of all estates of any great value, which, in my opinion, would insure a greater valuation of many estates, thereby still further increasing the revenue from this tax. If the amendments herein mentioned are made, it will be absolutely necessary that some such provision as herein indicated be made for the collection of the tax and to enable the office to do the work.

PAY PATIENTS AT THE INSANE ASYLUM.

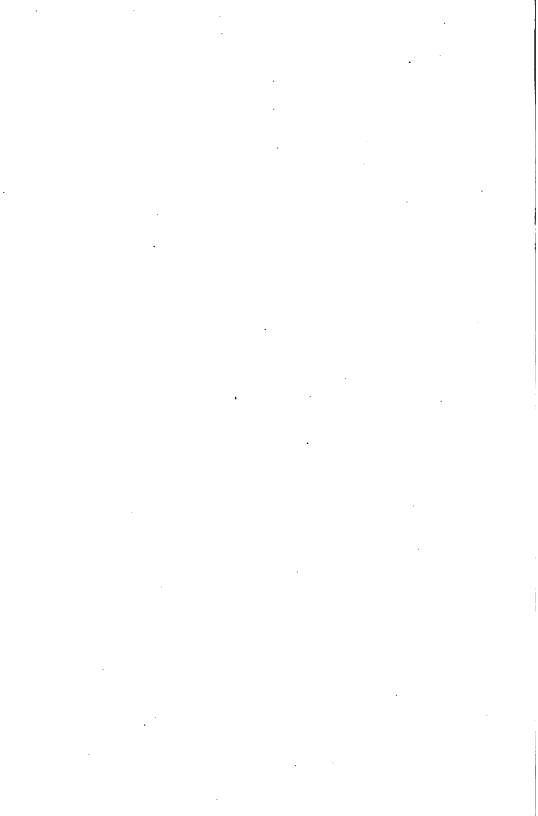

The law requiring insane persons, their parents, children or guardians who are financially able, to pay into the State treasury \$10 per month for the maintenance of such insane persons while confined in the asylum, has been in operation since 1903. There have been received since it went into effect \$5,392.71, and on September 30, 1906, the outstanding accounts amounted to \$3,141.65. As this law now stands I am not impressed favorably with it, either as a revenue producer or as a just law. The matter of determining the ability of a person to pay is the duty of the county judge at the time of commitment, and I find that in many cases he merely asks the person if he is able to pay, and finds according to his answer, without investigation of his financial ability. This results in a great many persons who are unable to pay being charged with the maintenance of a relative, while numerous others who are able to pay, are not charged. In a number of cases where the persons charged have shown that they were unable to pay without working a great hardship on them, particularly where the family was deprived of one of its earning members, I have asked the committing county judge to revoke his order, which has been done and the charge credited off. The payments are due on January 1 and July 1 of each year, and if

not paid in 30 days the bills are sent to the district attorneys for collection. In many cases the district attorneys are unable to find the persons charged or any property belonging to them out of which to enforce collection, therefore if this law is to continue, I would recommend that it be amended so that the charge of the State be made against the county from which the insane person is committed, and that the county collect from the proper persons, but I believe it would be better to repeal it altogether and authorize the Treasurer to credit off all unpaid accounts.

Respectfully submitted,

CHAS. S. MOORE, State Treasurer.

GENERAL FUND.

This fund embraces all the revenues of the State applicable to the payment of the ordinary expenses of the State Government.

It is derived from the annual tax levied on the several counties, tax on foreign insurance companies, tax on estates, fees paid by corporations, insurance licenses, Supreme Court fees, and from miscellaneous sources.

The expenditures from the fund are authorized by permanent and biennial appropriations, and by the several laws requiring the Secretary of State to audit accounts.

COMMON SCHOOL FUND, PRINCIPAL.

This fund is derived from the following sources:

The proceeds of the sale of the sixteenth and thirty-sixth sections of every township in the State, or of any lands selected in lieu thereof.

The proceeds of the sale of the five hundred thousand acres of land to which the State is entitled by the provisions of an act of Congress, approved September 4, 1841.

The proceeds of the sale of tide lands or sand islands within the State.

All the moneys and clear proceeds of all property which may accrue to the State by escheat or forfeiture.

The proceeds of all gifts, devises and bequests made by any person to the State for common school purposes.

The proceeds of all property granted to the State when the purpose of such grant shall not be stated.

Fines imposed for violation of laws regulating the practice of medicine.

All moneys which may be paid for exemption from military duty.

The fund is invested in first mortgage loans on real property within the State, and in bonds lawfully issued by school districts within the State.

The income from such investments is used to aid in the support of the public schools.

Statement of Receipts and Disbursements from October 1, 1904, to September 30, 1906, inclusive.

OREGON STATE COMMISSION, TRANS-MISSISSIPPI AND INTERNATIONAL EXPOSITION.

The legislative assembly, at the special session of 1898, appropriated \$15,000 to pay the warrants and certificates issued by the Oregon State Commission, Trans-Mississippi and International Exposition. A warrant on the general fund for the amount of the appropriation was drawn by the Secretary of State in favor of the State Treasurer, the amount being placed in a special fund. The transactions in this fund are not included in the general accounts of the department. The legislative assembly of 1905 authorized the transfer to the general fund of the balance remaining in this fund, and provided that any warrants and certificates thereafter presented not exceeding the amount so transferred, should be paid from the general fund.
